- Locker Module.
- Court Module.
- Risk Calculation Module.
- TDS Maintenance Module.
- Management Information System (MIS) & Business Intelligence (BI) Tool.
- Customer Merging.
- Report Designer module.
- Share Module.
- Financial Inclusion Module(FI).
- DRD/Pigmy Machine Interface.
- DEAF Module.
- Stock/ Fixed Asset /Dead Stock Maintenance.

Approach & Methodology

Software Product Features

- Centralized Any Branch Transactions (CBS)
- 24*7*365 Connectivity,
- Complete Branch/HO Operations.
- Support P.O.S. enabled.
- Support Biometric/ Card enabled.
- Software Support Bilingual & Multicurrency .
- Single window Concept.
- Working with 8 different Switches.
- Auto Interest calculation and posting.
- Auto Day end

- Security on Machine Level- Id stored in database.
- Security on User level with encrypted password.
- Security on User Login attempt.
- Security on Branch level.
- Security on Database level.
- Security on Branch Terminal Level.
- Security on Module.
- Security on User level .
- Security on Menu Level.
- https URL with http protocol and SSL.
- Make own data encryption and decryption algorithm (security certificate).
